Katy Perry is stunningly gorgeous. Now she has to drop that ugly horse's ass husband of hers, Russell Brand. It is unfortunate that she is as attractive as she is misguided with her poor taste in men. She should be with someone around her age not a guy who obviously can't handle women around his age.

Katy Perry has an amazing figure. I just love her curves. She's so shapely. She's a great example to real women around the country. She proves that curves really are sexy! I'm not skinny, I'm curvy, but I think that's the best way to be. Womanly. It's sexy!

I really LOVE this girl! And whomever calls her ugly must be blind! The girl is very pretty and has the most beautiful eyes. She will have a very successful future and making a bigger name for herself down the line.

Russell was charming and funny on Piers Morgan last night. :) I like that Katy keeps him in line. They're so cute/well-sited! Just Hope they stay together.
